

Bubba Fett is a 4 piece psychedelic electricana band based out of Livingston, MT. Self-proclaimed "Space Cowboys", their musical sound combines elements of americana, psychedelia, and blues into a sound that is wholly their own. Their songs incorporate stories and themes from the old west, science fiction and the supernatural that evoke a range of emotions in the listener.

The band's origins can be found in the husband/wife duo Rich and Steph Clewis. Steph has been a guitar player since her teen years, but tiring of always playing other people's songs struck out to write her own. Rich, an accomplished artist, musician, and long-time guitar player, helps create Bubba Fett's original sound and guitar leads. Together the band creates a unique, psychedelic electric-american sound with mellow, thought-provoking lyrics. During a recent interview, one of the hosts said "it makes me happy, and I want to listen to it when I'm feeling sad...it makes me feel good."

You can experience Bubba Fett live in Livingston and Bozeman on a regular basis. Singles of Skinwalker, Give In and Banshee are available on all streaming platforms and for purchase Bandcamp or this website. Follow Bubba Fett on Instagram and Facebook @bubbafettband
